Attachments: Dicamba Pending RD Actions Revised 1-30-19.docx

Marietta

As we discussed attached is the list of all the dicamba actions we currently are tracking. We've categorized these by their place in the queue.

1. actions that are essentially complete or need little work
2. Priority actions
3. Longer term actions
4. actions on hold pending data submissions

Hopefully, the biggest lift for the category 3 and 4 actions will be the data reviews and a short bridging memo to the existing assessments. The new corn use will require an expansion of the effects determination since it's a new use and will expand the footprint for overlap analysis

Subject: pending dicamba actions

Hi Mark,

Here is the list of pending dicamba actions. The BAPMA + pyrooxasulfone package is the second one listed under Group 3.

Thanks,
Monica
